

Mobile Covers – After Care

Here at Stuart Canvas we want to ensure that our customers are getting the full life span from our Mobile Covers by giving the best advice on how to maintain and store them during the winter.

At the end of the season you should remove your cover tops and store same. They should be clean, dry and stored off the floor to avoid damage by vermin. Cover tops should be cleaned using a damp cloth / sponge and soapy water.

Check your cover tops for any holes or tears as we are able to provide material and glue to allow customers to effect repairs themselves.

We can also offer customers a storage bag for cover tops, to give them added protection.

Once the cover tops have been stored away, the frames require the following tasks below, to ensure that they are fully protected:

- Check and tighten all nuts and bolts.
- Clean the gutters, outlets and brass gekas
- Lubricate the swivel mechanism on the swivel castors.
- Lubricate the bearings on the wheel axles.

Once all the above has been completed, your cricket covers are ready to be stored over the winter months, and ready for the 2016 season!

Additional Extras

Boundary Rope Trolley Cover

We can also provide a protective cover for boundary rope trolleys, to protect the rope from dirt and debris.

Germination Sheets

To get your square looking green again, use our germination sheets to bring your pitch back to life! All of our germination sheets come with reinforced hems and eyelets so they can be pegged down.

Our standard sizes of germination sheets are:

- 3.65m x 4.85m
- 3.65m x 22m

We can also manufacture germination sheets to specific sizes

Eyelet Replacement Kit

Here at Stuart Canvas we pride ourselves in customer service and we constantly listen to new ideas and products to offer to our returning and new customers.

Our eyelet replacement kit allows you to add additional eyelets to both your cover tops and flat sheets.

Our Eyelet Replacement Kit includes:

- 1 x Eyelet Punch
- 20 x Set of No 4 Eyelets

We can also provide eyelets separately.

Replacement parts

There are also a variety of accessories that we can provide to replace items that may have gotten damaged during your 2015 season:

- Shockcord/Rope
- Pegs
- Karabiners
- Brass Gekas
